## PROFESSIONAL PROFILE

### Background

I was born in South Africa where I qualified as an architect in 1976. After returning to South Africa from the USA where I completed a Master of Architecture degree in 1980, I practiced in South Africa until 1996 when I emigrated to Australia.

In Australia I practiced as a director from 1996 until 2007 when I was invited to join a practice as a partner in the Middle East. I was appointed as the Design Principal and Deputy Managing Director of DSA Architects International in Dubai from 2008 until 2019 when I returned to Sydney, Australia.

### Design

To me design is the *process* through which clearly stated objectives are achieved.

My competence is in physical design and the management of the design process.

I measure my success as an architect not only by the numerous projects successfully delivered and design awards received, but by the joy of working with many talented people from all over the world who shared my inspiration and enthusiasm in searching for the best possible outcomes.

### Character Strengths

Strong communication, interpersonal and presentation skills.

Interacts well in a group situation both as leader and in a key support function.

Excellent staff management, motivational and training skills.

Works well under pressure in deadline and financially high risk situations.

Flexible, innovative and creative in adapting and applying knowledge and experience to different circumstances and environments.

## PROFESSIONAL BODIES AND QUALIFICATIONS

NSW Architects Registration Board

Society of Engineers, UAE

Founding Member of The Australian Architecture Association.

Previously: RAIA, RIBA, Institute of South African Architects, Council of South African Architects.
